The winner of each pool will advance and 3 wild card teams will advance. The three wild card teams will advance based on the scoring method described below. Top three point getters and ties will be broken by the procedures listed. (Maximum of two teams from any one pool team bracket will be numbered from top to bottom 1 – 8. Wild card teams will be placed in positions 2, 6 and 7 based on procedures below. This will be done starting at the top of the bracket. Once this is completed, the pool winners from the same pools as wild card teams in position 6 and 7, will be placed in position 3 and 4. The pool winner from the same pool as the wild card team in position 2 will be placed in position 5. Position 1 and 8 will be filled by the pool winners that did not have a wild card team advance. This will be done using the procedures spelled out below. The winner even if point totals indicate otherwise. Position in the bracket will not be determined until the completion of play and wild card teams are identified.) The eight of this procedure will be placed in position 1 and the other team will get position 8. This procedure will ensure that a pool winner and their wild card team wouldn't meet again until the finals. Also, it allows random and fair placement once play is completed. A representative of teams from the open divisions should remain at the results area until the bracket has been filled.
